

Williamsburg Christian Academy Pre-Kindergarten Curriculum

Young children learn through working with their hands, and interacting with the world around them. Therefore, although Pre-K students will do some pencil and paper activities in class, the majority of their activities will involve hands-on learning.

Through this curriculum a letter of the Alphabet will be introduced weekly. One shape and one color will be introduced monthly. The children will be introduced to a new Bible Verse each month, along with a weekly Bible Verse pertaining to the Letter of the Week.

The instructional units will include Language Readiness, Math Readiness, Social Studies, Science and Bible. Math Readiness and Phonics will be learned through hands-on activities, using a variety of games and songs.
